

How to order

Whenever you would like service, call out "Sumimasen!" This will bring someone running.

Usually at an izakaya, customers choose several dishes "tapas" style and either pick what they want themselves or get several dishes for the table and share them. You can order extra dishes or another serving at any time. The dishes come out as soon as they are prepared.

If you would like the same drink/ dish again you can say "O kawari kudasai!" (Same again please.)

If you prefer to get your own dinner, it is also common to start with a few small dishes then a larger dish to finish but there are no rules.

If you are allergic to something or vegetarian, please ask our servers or the manager.

We have several set menu banquet options available. Please ask your server.

Our blackboard menus change regularly so if you want to know our specials in advance, please check our facebook page... www.taikokingland.com
